A: Bash will not expand history expansions when run from within another shell, as described in the bash man page (search for HISTORY EXPANSION): Bash has the following options that affect expansion of the HISTORY expansion: Expands HISTORY in a shell script or the BASH_ALIASES environment variable, see BASH_ALIASES, and the HISTORY builtin. If set, expands the list of variables in the .history file. If BASH_ALIASES is set, the variables to be added to HISTORY are defined in it. If both are set, the variables in BASH_ALIASES are added to HISTORY. If HISTORY is set, HISTORY is expanded in the environment. The following options affect the expansion of commands already in the history: histappend Appends commands already in the history, if possible. The following options affect the expansion of commands executed by the test and [commands:
